APP Overview

The APP is an intensive academic English program developed specifically for preparing students to enter a college or university.

- ▶ Entry: High-intermediate level of English - Quest level 7. Entry test required. Students lacking the required level of English may first register in our General English program.
- ▶ Duration: 12 weeks and up to 16 weeks for students needing more practice.
- ▶ Exit: Successful completion of the Academic Pathway Exit Test. Students failing the exit test may retake it one-time two weeks later. Failing the second test will require an additional 4 weeks of study prior to taking the test again.

The course focusses on improving English reading and writing, and teaching research and analytical skills to rigorous academic standards. The program will enable students to:

- ▶ Develop effective learning strategies and research skills for application to academic writing.
- ▶ Build an academic lexicon and develop strong presentation skills.
- ▶ Read effectively for main idea identification, scanning for specifics, and linking and organizing ideas.

Upon successful completion of the program and related requirements, students may then enter into a wide variety of programs at partner institutions. The table below indicates the minimum language proficiency level required to enter a college or university degree program. The majority of programs require an APP exit test score of 74 to 87. Higher scores may be required for some programs.

Quest Equivalency Table

If you are considering pursuing higher education in Canada (college or university) the majority of programs require a minimum APP exit test score of 74-87 or its equivalent (see red row below) for entry. Some programs may require higher scores.
