**Weekly Testing and Progress Reports:** In all programs, **weekly written** review tests and **monthly oral** tests ensure you have understood the material. Instructors keep track of your scores and provide you with detailed Student Progress Evaluation Reports every 4 weeks, accessible online. This continuous feedback is critical to helping you to learn effectively and progress rapidly.

**Level Completion:** Your test results combined with your overall evaluation report determine your readiness to move to the next level. On average, students progress to the next level every 4 to 5 weeks. Students studying 32 lessons may advance more quickly at about 3 to 4 weeks per level.
